

Product Designer with 3+ years of experience designing fintech and investment products, specializing in 0→1 experiences, complex user journeys, and scalable consumer products that balance user needs, business goals, and compliance constraints.

WORK EXPERIENCE

HDFC Securities Mumbai

Product Designer · May'23-Present

- Designed and shipped **paid subscription plans** in HDFC SKY, generating **₹50L+ in revenue in 4 months** — owned the flow from problem discovery through engineering handoff. [Read Case study](#)
- Led end-to-end design of **NPS onboarding flow**, lifting user engagement **60%** and driving **1,000+ new account sign-ups** in the first quarter post-launch.
- Redesigned the IPO application journey by mapping friction across key touchpoints, simplifying the investor experience, reducing application funnel drop-offs, and **achieving 96.8% CSAT with a 4.79 user rating**. [Read Case study](#)
- Revamped KYC verification across InvestRight and HDFC SKY, cutting customer support queries by **15%** via clearer error states, microcopy, and progressive disclosure.
- Tracked user engagement and click data through **CleverTap**, working with **product and analytics teams** to validate design decisions and improve the experience
- Conducted **100+ user interviews post-revamp** - gathered insights & defined actionable for better user experience.

IIFL Securities Remote

Product Design Intern · Mar'23- May'23

- Ran **UX audits and competitive benchmarking across 8+ leading finance apps**; presented usability gap analysis and prioritized recommendations to design and product leadership.

Capgemini Pune

Product Design Intern · June'21- Dec'22

- Built and maintained frontend components for fintech clients across multiple product domains; collaborated with cross-functional teams on releases
- Performed automated UI and API testing using Selenium; deepened understanding of design-to-engineering handoff that now informs my product design work.

EDUCATION

Imagin XP

UX Design Fundamental Course - **9.4 (Design Quotient)** [Read Case Study](#)

B.Tech - Computer Science Engineering

D. Y. Patil College of Engineering & Technology, Kolhapur (July'16-May'20)

CORE SKILLS

Product Design: Problem Solving, UX Strategy, UX Design, UI Design, Interaction Design, Information Architecture, Visual Design, Design Thinking, Wireframing, Prototyping, Design Principles & Patterns

Domain Expertise: Fintech, Investment Products, 0 to 1 Product Design, Security & Compliance UX (KYC, SEBI-regulated flows, transaction safety), High-stakes Consumer Flows, Strategic Design Trade-offs

Research: User Research, User Interviews, Usability Testing, Journey Mapping, Competitive Benchmarking, Data-Driven Design, A/B Testing, Funnel Analysis

Collaboration & Systems: Cross-Functional Collaboration, Design Systems, Engineering Handoff, AI-assisted Design Workflows

Tools: Figma, Claude Code, NotebookLM,Procreate, Clevertap, Framer, HTML, CSS, JavaScript (Familiarity/Understanding)
